38	108	14	160
24%	68%	9%	

### Comments from Q1

Brilliant idea with the use of technology! I would like to book appointments online via email or via text

I prefer text messages

I can't cope with emails/messages too old

Not keen on Facebook

I only said no because I don't go on social media often

I am retired and no longer use Facebook or Twitter

[johnbettymann@btinternet.com](mailto:johnbettymann@btinternet.com)

Be aware that teachers are advised not to use things like Facebook - so it is not just the elderly who do not

I don't use Twitter at all

it's hard to get appointments without being made to feel guilty!

### Comments from Q2

I don't use my email often

Partners email is: daphne0303@hotmail.co.uk

Would prefer to know what is "deemed appropriate" first

### Q7 Do you have any suggestions on what information you would like the newsletter in?

Anything relevant

Up to date info about all Drs working at the practice

Opening hours. How to book appointments. Weight loss groups/schemes. How to get repeat prescriptions.

services available at the practice rather than the hospital

New drugs coming on the market

Perhaps drawing peoples' attention to support groups in the area e.g. for mental health & so on. I know this isn't directly related to the services you provide but it might be of help to some people

Practice email

Services. Dr Names

Current appointment procedures & any changes to opening hours. Screening information for cancers. Any staff changes

Capacity Statistics

1. Current issues 2. How to keep fit & healthy. 3. News about the practice team. 4. News about surgery performance - targets etc.

Opening times as they change i.e. (sat am)
